Temara, Morocco

SKILLS

React & Next.js

TypeScript & JavaScript

Responsive UI & Tailwind CSS

MySQL, SQLite & MongoDB

Laravel & Django

Java & Spring Boot

LANGUAGES

Arabic | Native language
French | TCF C1 certified
English | Certificate, American
Institute of Temara

TOOLS

- **Git & GitHub** (branching, pull requests, code review)
- **Docker & Nginx** (containers, reverse proxy, TLS)
- **Vercel & cPanel/Apache** (edge hosting, standalone Node deploys)
- **VS Code, Vite & Tauri** (build tooling, desktop packaging)

PROFESSIONAL PROFILE

Full stack developer specializing in JavaScript and TypeScript. Twenty months with Asana Rebel in Berlin, remote: I worked on the front end of VisualMind, a React SPA built around a 43-node interactive map canvas, with Java and Spring Boot on the back end, and built the web front end for Filterly, their AI photo app on iOS and Android. Alongside it, e-commerce stores and landing pages for Moroccan brands with Next.js, Laravel and Django. From first pixel to deployment: clean code, polished interfaces and delighted users.

PROFESSIONAL EXPERIENCE

Full Stack Developer

Asana Rebel GmbH

December 2024 – August 2026, Berlin (Remote)

- Worked on the front end of VisualMind, a live AI subscription product built around a 43-node interactive map canvas, with Java and Spring Boot on the back end.
- Kept the API's write load bounded: bursts of edits collapse into one debounced PATCH, and all eight export formats are generated in the browser, so exports cost the server nothing.
- Built the web front end for Filterly, their AI photo app on iOS and Android — a Next.js site prerendered and served from the edge, so paid campaigns are absorbed by cache.

Freelance Developer — E-Commerce

Independent

- Built and ran stores and landing pages for Moroccan brands, including Maroc Games: 69,564 DH collected across 659 delivered orders in 284 days.
- Ported that store from Flask to Next.js 16 and React 19 route by route, keeping every URL identical so live ad campaigns converted straight through the switch.
- Reduced the order path to three validated fields — no cart, no account — with conversions reported server-side and personal data SHA-256 hashed before it leaves the server.

Sales Agent

Nespresso Canada

August 2023 – August 2024, On site

- Handled inbound sales and support calls, advising customers and resolving product, order and technical issues on the first call.

EDUCATION

Professional Bachelor in Software Development

Ecole Pro Systems

2024 – 2026, Rabat

Bachelor's Degree in Economics and Management

FSJES Souissi

2018 – 2023, Rabat Souissi
